CONTACT DETAILS

Please feel free to Contact us for a list of our clients & details of various solutions we have created for them along with any other query at:

Newton Logics -
141, Adarsh Industrial Estate, Sahar road, Chakala, Andheri-east
Mumbai 400099, Tel. 0091-22-67021411/22

What if there was a solution that **totally controlled all your trade needs?**

What if this solution actually **multiplied profits?**

What if this solution was so automatic that it created proposals, invoices, orders, accounts, analysis of buying/sales/stocking trends on its own?

The time for what-ifs is over. Newton Trader is here. The solution that makes crucial decisions for you. Decisions like: which is the best trader to buy from in terms of quality and price; which is the best organization to sell to and when is the next order due; What to stock; How much to stock; When is the stock due for a refill; or even How can we save on overstocking and damage of goods?

Newton Trader is an answer to your numerous questions

You could be B2B trade organization or a B2C company; a stockist, an international importer/exporter, a manufacturer, a wholesaler, a small-time ambitious business, a multinational or a window for other trades or a combination of the above. Newton Trader boosts your profits and makes your business grow, no matter who you are! Newton Trader is an extremely powerful business tool and what's more it is totally cost effective.

Any solution can give you information but Newton Trader actually helps you act on the information by prompting decisions and actioning orders, invoices, proposals, specials for preferred clients, sales reports, graphical analysis and just about anything... You name it and Newton Trader will do it.

For instance, at two in the morning, if your sales executive in Assam needs to know the most competitive landing cost of an item imported from Japan, Canada or UK in order to give a quick quotation? Plus, he needs to analyze in the last five years how has Assam been as a market and what will be the trend in the coming four years? Also, he needs to know whether the currency against UK pound is better than the Canadian dollar for profit in Indian rupees. And just to make things more complicated he wants a quick research on which country's goods are selling the most in rural areas as against urban areas along with, which is the best season for sale of the item because it affects stocking. He would need a few minutes.
